

Statement of Typical Participant Earnings

The primary source of income of a Typical Participant in the Compensation Plan (the “Plan” or the “Canadian Plan”) of Infinitus Innovations (Canada) Inc. (“Infinitus Canada”) is from compensation on personal and downline sales of products and/or services. Personal earnings will vary. A Typical Participant in the Plan is defined to be a Distributor who has been engaged in the Plan for at least one year, and who actively engages in the activities necessary to realize the benefits of the Plan. A Typical Participant in the Plan is expected to earn between Cdn \$49 and \$964 annually.

Please note that these earnings are estimates and have been derived from the earnings experience of Infinitus Canada during the first six months of operation of the Canadian Plan. After one year, this Statement of Typical Participant’s Earnings will again be updated with compensation actually received by typical participants in the Canadian Plan for the first annual period, and then be updated annually thereafter.
